## 1. Cooluli Mini Beauty Refrigerator **£65**

Perfect for cooling your crystal roller, serums and creams this mini-fridge from Cooluli is an ultra-versatile addition to your beauty space. The compact, miniature design switches from heating to cooling with a thermoelectric system that adapts to your needs. Easy to power with included USB adapter and featuring a stylish, matte finish case in three colours.

## 2. Smart LIVALL C20 Bike Helmet **£65**

For all those who like to ride a bike on their own, the LIVALL C20 is a must-have new device. Motion sensors continuously monitor the position of the helmet and detect when strong forces are acting on the helmet, such as from a fall. The helmet reports this to the LIVALL app, which in turn informs an emergency contact via SMS. So that it is always active when its owner is, the LIVALL C20 automatically switches on when the helmet is moved and deactivates after 5/10/20 or 30 minutes of inactivity. The brake and tail light positioned high on the head increases the driver's visibility as you are perceived much earlier than with a conventional tail light.

## 3. Nurvv Run **£249.99**

Nurvv Run is a new sports wearable that measures running from the feet to provide data, deeper insights and live coaching. This unique device is the most effective way to improve your running performance and with Nurvv's unique Running Health score it will help you stay injury free. Nurvv Run comes in sizes small, medium, large and extra large and the water-resistant device has over five hours of battery life.

## 4. Royole Rowrite Digital Notepad **£119.99**

The RoWrite 2 simultaneously captures your handwritten ideas, notes, and drawings on the paper digitally. Combining Royole's Flexible+ Sensor with the RoWrite 2 pressure sensitive pen results in accurate capture of every single stroke. Your work can also be played back, modified and shared via emails or social media.

## 5. Kokoon Sleep Headphones **£349.99**

Kokoon's over ear headphones have active noise cancelling technology to help induce and protect as well as smartly monitor your sleep and relaxation. Washable, detachable, foldable triple-layer noise protection ear pads are made from a durable natural fibre and have a Flexmould Comfort silicone design to fit the shape of your head. Designed to be worn throughout the night, ear cushions allow airflow through to keep you cool and comfortable. An easy-to-use linked Bluetooth App includes an audio library providing sleep techniques and exercises used in Cognitive Behaviour Therapy (CBT).
