

LONDON BOROUGH OF LAMBETH

PROPOSALS TO INTRODUCE ELECTRIC VEHICLE CHARGING PLACES IN VARIOUS ROAD THROUGHOUT THE BOROUGH

[Note: This notice is about proposals to introduce new electric vehicle charging places, some of which would be for certain CPZ permit holders only, in various locations as specified in paragraph 2 and the Schedules to this Notice. If there is any existing parking space at the locations specified in Schedule 2 or 3, then this would be removed to accommodate the new electric vehicle charging places. Objections or other comments may be made – see paragraph 6].

2. The general effect of the Orders would be:

(a) to introduce:

- (i) electric vehicle charging places at the locations specified in Schedule 1 to this Notice. These charging places would operate at any time and would be available to any electrically propelled vehicle whilst charging, for a maximum stay period of 24 hours, with no return within 2 hours;
- (ii) resident permit holder's electric vehicle charging places at the locations specified in Schedule 2 to this Notice. These charging places would operate at any time and would be available to resident permit holders of the controlled parking zone ("CPZ") shown in brackets next to the locations, whilst charging, for a maximum stay period of 24 hours, with no return within 2 hours. [Note: other types of permits holders with permits that can be used in those resident permit holders parking places within those CPZs would also be permitted to use these charging places, whilst charging]; and
- (iii) permit holder's (resident and business permits) electric vehicle charging places at the locations specified in Schedule 3 to this Notice. These charging places would operate at any time and would be available to resident permit holders or business permit holders of the controlled parking zone ("CPZ") shown in brackets next to the locations, whilst charging, for a maximum stay period of 24 hours, with no return within 2 hours. [Note: other types of permits holders with permits that can be used in those permit holders (resident and business permits) parking places within those CPZs would also be permitted to use these charging places, whilst charging]; and

(b) in the locations specified in Schedules 2 and 3 to this Notice, to remove or reduce in length existing parking spaces to accommodate the resident and permit holder's electric vehicle charging places.

3. The proposed Orders are necessary to provide electric vehicle charging places to meet demand and aid the transition to electric vehicles. Electric vehicles contribute to improvements in air quality, specifically nitrogen dioxide (NO₂) levels and reduce greenhouse gas emissions and so the Council wishes to encourage their use. The current lack of charging facilities is a barrier for people wishing to buy electric vehicles and so by providing more charging places, the aim is to remove that barrier and give potential users more confidence that they will be able to access charging facilities when necessary.

4. If you have any enquiries about this matter, please send them by email to: cpzconsultation@lambeth.gov.uk
