1. National Geographic 76/350 Reflecting Telescope £99

Observe the sun and stars with a 76/350 telescope by National Geographic. Offering the perfect introduction to astronomy, this incredible telescope has a unique filter containing a special protective foil. The foil protects the eye from all kinds of solar radiation during observations including infrared ultraviolet and visible light, all of which are dampened to a safe level. Make use of the smartphone adaptor to record your observations to share with the world.

2. Evapolar Humidifier £249.99

EvaSMART is a personal air cooler that creates your local microclimate. Evapolar is a four in one device: it cools, humidifies, and cleans the dust particles from the air making it healthier for you. It has various Smart features to enrich your comfortable experience: works with smart home assistants and is operated via mobile application. It doesn't take much time or effort to install evaSMART – just pour water in the tank, plug it in, set the Wi-Fi on and enjoy. EvaSMART working principle is based on the natural water evaporation technology. It is the most efficient evaporative air cooler of this type.

3. Manniska Wireless Music Sleep Mask £30

Relax and let yourself fall asleep with this wireless face mask by Manniska. Made from a thick cotton and polyester fabrication that blocks light, this mask is fitted with a Bluetooth connection that allows you to listen to your favourite music or podcast. It takes two hours to charge but lasts up to six hours each night which is perfect for drifting off into a decent sleep.

4. Light-Up Bluetooth Shower Speaker £16

This Bluetooth-enabled speaker is perfect for jamming to your favourite tunes in the shower. It uses a suction cup backing in a splash-resistant design to stick right to your shower or bathroom wall. The speaker includes 1-2 hours of battery life and a built-in microphone for wireless voice calls and also lights up with a choice of different colours and fades.
